

# snelheid

## deelsommen

Wie is het snelste?

Max rent 12 meter in 6 seconden

$$x = \square \text{ m}$$
$$t = \square \text{ s}$$
$$v = \frac{x}{t} = \frac{\square}{\square} = \square \text{ m/s}$$

Emma rent 10 meter in 5 seconden

$$x = \square \text{ m}$$
$$t = \square \text{ s}$$
$$v = \frac{x}{t} = \frac{\square}{\square} = \square \text{ m/s}$$

Daan rent 8 meter in 2 seconden

$$x = \square \text{ m}$$
$$t = \square \text{ s}$$
$$v = \frac{x}{t} = \frac{\square}{\square} = \square \text{ m/s}$$

Mieke rent 5 meter in 1 seconde

$$x = \square \text{ m}$$
$$t = \square \text{ s}$$
$$v = \frac{x}{t} = \frac{\square}{\square} = \square \text{ m/s}$$
